PRICES VALID FROM NOVEMBER 7 - 23, 2022 | TWPERRY.COM

VERSATEX Building Products are manufactured from cellular PVC, which is impervious to insects and moisture. Our product formula ensures VERSATEX maintains its bright white color and is dense enough to use the same cutting tools and fasteners one would with a traditional product. These factors and more create an ideal solution for moisture-sensitive areas, including those along coastal zones or regions affected by salt and high humidity. Warping, fading, cupping, or splitting is now a thing of the past — just a building product with high aesthetic value backed by an industry-best, lifetime, fully transferable, non-prorated warranty.

FastenMaster Cortex For Versatex Trim Smooth Plugs and Screws
